

Please leave the WI No Call List in place. I am so tired of having my home invaded by solicitation calls! Many calls are now placed by machines, or a taped introduction comes on and asks me to "hold for the representative". Then there are the times that I pick up too quickly and therefore there is no one on the line (I am quicker than the machine!). When I was on the list, I received maybe 3 calls per day. Having neglected to sign up as yet again, I am receiving 6-7 "unproductive" (to anybody, except perhaps the phone companies) calls per day.

Citizens have a right not to be "harrassed" by solicitation calls at home.

Thank you!
